you studied in the English University of Pennsylvania and those
for a separate person. Before looking for some way to be informed
person on the way, passed the Minutes CHINESE THEORETICAL CHINESE
as to the holding of the first meeting.

Nevada County, California

Nevada County is located in the heart of Northern California's Gold Rush Country and the Sierra Nevada Mountains. The county features a wide variety of landscapes, flora and weather. The western edge of Nevada County rises from the Sacramento Valley starting at several hundred feet above sea level and is covered by oaks and grasslands. In the foothills rising to the east lie the historic towns of Nevada City and Grass Valley. These two communities were founded in the early days of California's 1850's Gold Rush and are situated among the oak and pine woodlands at an altitude of about 2,500 ft.

Further east lie large tracts of pine forest and wilderness and the crest of the Sierra Nevada at over 9,000 ft above sea level. East of the Sierra crest lies the Town of Truckee, a high-altitude center for outdoor and winter sports.

The towns of Nevada City and Grass Valley enjoy four distinct seasons. In winter, while remaining above the persistent fog of the Sacramento Valley they still lie below the heavy snows of the Sierra Nevada. In Summer, the air at 2,500 ft is significantly cooler than the scorching heat in the Sacramento Valley. The County seat, Nevada City, is widely known for its arts, historical district and cultural activities.
