

When faced with extreme climate events like wildfires, severe storms, and increasing temperatures, **how READY is Nevada County's transportation network?**

Please Attend Our Virtual Workshop

Your feedback is needed on the draft **READY Nevada County Extreme Climate Event Mobility & Adaptation Plan!**

The Nevada County Transportation Commission invites you to our workshop to discuss the draft Plan, which addresses the impacts of extreme climate events (extreme temperature, precipitation, snowpack, landslide, and wildfire), and adopts cross-disciplinary approaches to prioritize the people, places, and infrastructure most at risk.

About the Plan

The READY Nevada County Plan will build on the ongoing coordination and emergency planning efforts in Nevada County to identify climate-related challenges to the transportation network and develop strategies to address them.
